

Rugged, reliable & portable solar panels

Nomad 5 - Nomad 10 - Nomad 20

NOMAD 5

A lightweight solution for on-the-go power from the sun, the Nomad 5 features 5-watts of monocrystalline in a rugged enclosure with an easy-to-use kickstand and USB output.

Highlights

- 5 Watt panel gives you the solar collecting capability needed to charge your phone anywhere the sun shines.
- Built-in kickstand clicks into place at multiple angles, so you can easily position your panel for optimal solar collection.
- Rugged and durable, built to last as long as your adventures do.

NOMAD 10

The Nomad 10 Watt panel gives you the solar collecting capability needed to charge your phone anywhere the sun shines. Redesigned for a more seamless solar charging experience, the Nomad 10 features a built-in Flip dock and adjustable kickstand that clicks and locks into place for added stability. Integrated USB port charges phones, power banks, and other small devices.

Highlights

- Built-in kickstand clicks into place at multiple angles, so you can position your panel for optimal solar collection and ensure it stays put.
- Lightweight design can be strapped to your pack or tent and folds down easily for storage.
- Rugged and durable.

NOMAD 20

Charge a wide range of small to medium size devices from the sun with this 20 watt foldable solar panel. The Nomad 20 features a solar charger design, durable enough to last through any adventure and sleek enough to fit in any pack or bag. Includes integrated cable storage, built-in Flip dock, and adjustable kickstand.

Highlights

- Built-in kickstand clicks into place at multiple angles, so you can position your panel for optimal solar collection.
- Integrated 8mm cable and USB port let you charge a range of small to medium size devices including phones, tablets, power banks, and more. If you want to capture more sun, the 8mm cable lets you chain additional solar panels for faster charge time.
